

KAITO CELL PHONE POWER CHARGING TIPS

Tips to use the TIPS

Thank you for ordering your Kaito KA009R Emergency Radio/Flashlight.

The Kaito KA009R has the capability of charging your cell phone via the built-in cell phone charging jack. In order to use right tip, here is tip how to use the tips.

1. See the tip photos below and see if your cell phone model is in the list. Choose the right one
2. Use the common cable to connect the right tip to the out put from the radio and cell phone input.
3. Make user the connection is secured. If there is no charging sign on the cell phone when you crank the dynamo handle, re-connect the cable to both ends and make sure they are connected well.
4. For some cell phones, the charging circuit in the cell phone is specially designed for its own charger, the charging volt is preset to a certain threshold, so it is better to crank in a proper pace to generate a proper volt to charge the batteries inside. So, you may have to crank it in a certain speed to have a steady charging. If you have any questions, please call us for advice. (909) 628 6088 or visit www.kaitousa.com
